Summary

Frontend Developer with 1+ year of experience in building responsive web applications using Next.js, React, TypeScript, and Material-UI. Skilled in state management using Redux and API integrations. Passionate about delivering highperformance, user-friendly web experiences.

Education

NIT Kurukshetra

Jul 2018 - Jul 2022 | Kurukshetra, India

B.Tech in Electrical Engineering

Skills

Languages: Java, JavaScript, TypeScript, HTML, CSS

State Management: Redux (Redux-Thunk, Redux-Saga, React Context API)

Frameworks & Libraries: React, Next.js, Material-UI, Node.js, Express.js

Databases: MySQL, MongoDB, PostgreSQL

Cloud & DevOps: AWS (CloudWatch), Cloudflare

Tools & Others: Git, GitLab, Jira, Postman

Work Experience

LYCADIGITAL INDIA PRIVATE LIMITED

Jan 2024 – present | Bengaluru, India

Software Engineer

Technologies: Next.js, TypeScript, React, Material-UI, Redux, Axios, Formik, React Query, Styled Components, Sass

- Developed & maintained the Lyca Mobile website using Next.js, TypeScript, React, and Material-UI.
- Optimized key pages (Home, PLP, PDP, Checkout, Payment) for better performance and responsiveness.
- Implemented state management using React-Redux, Redux-Thunk, and Redux-Saga for efficient data handling.
- Integrated RESTful APIs using Axios and React Query to fetch and synchronize data.
- Implemented navigation with React-Router-Dom for a seamless user experience.
- Built forms and validation with Formik, React Hook Form, and Yup for handling user input.
- Styled components using Material-UI, Styled Components, and Sass for a modern UI.
- Improved website performance with lazy loading, caching strategies, and asset optimization.
- Enhanced UI/UX with animations using Framer Motion and React Spring.
- Ensured application reliability through testing with React Testing Library and Axios Mock Adapter.
- Implemented internationalization (i18n) using React Intl for multi-language support.
- Collaborated with teams using Git, GitLab, and Jira, and managed deployments via SSH.

Projects

Full-Stack E-Commerce Platform

- Developed a full-stack e-commerce application with product catalog, user authentication, and Razorpay payment integration.
- Built the frontend using React.js and backend with Node.js, Express, and MongoDB.
- Implemented secure authentication using JWT and bcrypt.
- Integrated Razorpay for seamless online payments.
- Deployed on **Vercel**, ensuring high availability and scalability.
